

# Toolkit Sessions

The GiANT toolkit is comprised with over 65 visual leadership tools that help with topics such as self-awareness, team dynamics, expectations, how to support and challenge, communication and other vital skills needed to lead well. These sessions will equip you with the expertise needed to move to higher levels in your leadership.

## About

GiANT has over 65 visual leadership tools that focus on various areas needed for taking teams and individuals to higher levels. These toolkit sessions will focus one tool at a time in order to build the skillset needed to develop people who create healthy environments.

The typical outcomes you will experience:

- An increased level of ability to communicate effectively with everyone you lead
- Become equipped to use common language to increase the relationships in your organization
- Learn the appropriate time and situations to be both productive and present with those you lead
- Develop and increased awareness in the tendencies that undermine a leader's influence
